

**Artwork Installation/Performance Request Form**

Any installation in the building must meet all of the following safety requirements:

1. An installation CANNOT block or impede any fire exit or stair well.
2. An installation must not contain sharp protruding objects
3. You CANNOT install in the elevators.
4. You MUST leave a 42" passage way in all hallways.
5. You CANNOT remove or obscure fire extinguishers.
6. You CANNOT cover or alter any of the exit lights.
7. You CANNOT hang or support objects from the lighting fixtures or tracks.

If you wish to install work on campus, outside of the JLVAC:

1. You must obtain a faculty/staff sponsor.
2. Prepare a written proposal with illustrations and/or drawings (if possible).
3. Contact UWO Building and Grounds Department and establish individual responsibility for the area/architecture/plants/trees, etc involved in the project.
4. Inquire about the possibilities and restrictions
5. Make a presentation to the Physical Plant individual responsible for the particular area you require.
