Assignment Descriptions:

Presentation: Practicum Application (Draft)

This is an opportunity to discuss your practice and/or research.

What is your work's historical, cultural, social and/or political context?

Why are you drawn to specific mediums, instruments, approaches and methodologies?

You will put together a 10-minute presentation of at least three artworks (from different bodies of work) that you have produced in past classes. Prepare 5 minutes where you present; the remaining 5 minutes will be used for group discussion. Use most of your presentation time for the artwork on display, but you may also include a couple of sentences on your general approach to art. Submit a PDF copy and/or link to your SlideShow, PowerPoint or Google Slides and a one-page artist statement (250 - 500 words) to OWL. These files may be submitted up to 11:55 p.m. on the day of the class, so you can submit them after the presentation or re-submit a revised version if you submitted them before the class.

Submission: Practicum Application (Final)

This will be an updated version of your Presentation: Practicum Application (Draft) assignment. Where applicable, you must take feedback to revise your Artist Statement, update content, and/or improve documentation. Details on submitting files will be announced via OWL and/or email by mid-term.

Exhibition Proposal (Partnered or Solo)

Details on submitting files will be announced via OWL and/or email by mid-term. More Soon!

Midterm: Studio Project:

You must develop an art project for this class. It can be in any medium and/or media. You are strongly encouraged to present in a medium you have never worked in. If the work is not digital, documentation must be submitted in digital form (e.g. docx, pdf, html, www, etc.). Your project must be focused and cohesive. It should be ambitious in scope. It is highly recommended that you start early and give yourself plenty of time to change course along the way, investigate tangents, and challenge yourself. Consider how the project connects to or fits in with your more extensive work.

Remember, in-class critiques are integral to the development of your project. Your preparation and performance during your critiques are considered in your grade. You must also include a 1-page Project Statement via OWL.

The in-progress critique for the final on February 9th will be peer-graded.

Final: Studio Project

This project should be entirely different from the Midterm. However, suppose your project is ambitious in scope (e.g. a multi-media installation, a series of paintings or sculptures). In that case, you may continue developing the same project, thread idea, or body of work. If you choose to continue developing a body of work, you **MUST** present significant change, additions, development, and progression. Both options demand the same degree of rigour and exhaustion. If you present the same project with little to no change, it will adversely affect your grade.

Remember, in-class critiques are integral to the development of your project. Your preparation and performance during your critiques are considered in your grade. You must also include a 1-page Project Statement via OWL.

The in-progress critique for the final on March 23rd will be peer-graded.

Course Requirements:

- Students are expected to have an active official UWO email address (communications outside of class will be done via email).

- Students are expected to do the assigned readings/viewings/recordings/etc. and come to class prepared to discuss them.
- Students are expected to contribute to the class in a thoughtful, timely, informed, focused, sensitive, and respectful manner.
- Students are expected to have an insatiable curiosity and a desire to learn, research, experiment, and create. Attendance:
 - Attendance, punctuality, and preparedness for a class are critical.
 - University regulations stipulate that students who miss 15% of their classes without written corroboration for health or bereavement can be debarred from participation in final evaluations and/or critiques.

Course Materials:

This combined studio and theory seminar course is required for Honours Specialization in Studio Arts students. The focus of the course is the development of an independent and self-directed studio practice in the context of an introduction to the methods and practices of professional artists.

You will need a notebook and/or computer.

All students are required to develop 1 - 2 projects over the semester. Projects may touch on any theme, concept or idea that you wish. This project may be any medium and scale you wish.

You are responsible for acquiring and/or purchasing all materials necessary for completing your assignments this year.

You are responsible for inquiring and/or researching all health and safety protocols regarding the installation and presentation of your project for midterm and final critiques.

Assignments/Late Assignments:

Students are expected to complete all assignments on time. Failure to complete assignments without prior arrangements with the instructor will result in a failing grade. With prior discussion, students may hand in late work with a 2% per business/weekday deduction from the assignment. Extensions will be given on a case-by-case basis. Typically, this would be upon official notification from the student's faculty advisor due to documented severe health and bereavement reasons. Communicate with me!

Prerequisite Checking:

You are responsible for ensuring you have completed all course prerequisites and have not taken an anti-prerequisite course. Lack of prerequisites may not be used as a basis for appeal. If you are not eligible for a course, you may be removed from it at any time, and you will receive no adjustment to your fees. These decisions cannot be appealed.

AI Policy:

In this course, students can use AI tools exclusively for information gathering and preliminary research. These tools enhance the learning experience by providing access to diverse information sources. However, it is essential that students critically evaluate the obtained information, exercise independent thinking, and engage in original research to synthesize and develop their ideas, arguments, and perspectives. AI tools can serve as a starting point for exploration. However, students are expected to uphold academic integrity by appropriately attributing all sources and avoiding plagiarism. Assignments should reflect the student's own thoughts and independent written work. By adhering to these guidelines, students contribute to a responsible and ethical learning environment that promotes critical thinking and independent inquiry and allows them to produce original written contributions.

Plagiarism:

Plagiarism, defined as “The act or an instance of copying or stealing another’s words or ideas and attributing them as one’s own,” will not be tolerated. (Citation excerpted from Black’s Law Dictionary, 1999, 7th ed., p. 1170). This includes presenting another creator’s visual or aural work as your own. Visual or Aural Plagiarism may involve hand-based media, such as drawing, painting, printmaking and sculpture, and digital media, such as photography, video and sound. It includes work subsequently manipulated or transferred between different media and self-plagiarism – work submitted for previously produced and graded assignments for another course. Similar to textual plagiarism, all student work involving the visual or aural work of others must be appropriately cited/identified, whether in print or orally. Failure to do so will lead to similar academic penalties as those identified in Western’s Academic Calendar.

Student Conduct:

All students will conduct themselves consistently with the maturity and academic integrity expected of university students. Student conduct shall be consistent with the general laws of the community and with University regulations. Students shall show regard and respect for the rights, safety, and property of all University community members and are expected to act responsibly within the University and the community at large. https://www.uwo.ca/univsec/pdf/academic_policies/appeals/code_of_conduct.pdf

Academic Sanctions:

In instances of non-payment of prescribed tuition and other fees, the University shall seal the academic record. When an academic record is sealed, the student cannot:

- a) view grades;
- b) register for future courses;
- c) receive transcripts or a degree diploma;
- d) obtain admission or readmission.

The above prohibitions shall be in force until indebtedness to the University, including payment of a fee for removal of the seal, has been cleared to the satisfaction of the University.

Additional Course Material Request Policy:

The material may be presented in various ways at the instructor's discretion for online courses. Requests for additional material can only be made in cases necessitating academic accommodation. Students who require Academic Accommodation for the course material can contact Western's Academic Support & Engagement department. <http://academicsupport.uwo.ca/>

Academic Consideration:

The University recognizes that medical illness may occasionally impair students' ability to meet their academic responsibilities. Illness may be acute (short term), or it may be chronic (long term), or chronic with acute episodes. The University further recognizes that medical situations are deeply personal and respects the need for privacy and confidentiality in these matters. However, to ensure fairness and consistency for all students, academic accommodation for work representing 10% or more of the student's overall grade in the course shall be granted only in those cases where there is documentation indicating that the student was seriously affected by illness and could not reasonably be expected to meet their academic responsibilities.

As soon as possible, documentation shall be submitted to the appropriate Dean's office (the Office of the Dean of the student's Faculty of registration/home Faculty) together with a request for relief specifying the nature of the requested accommodation. These documents will be retained in the student's file and held in confidence following the University's Official Student Record Information Privacy Policy.

Once the petition and supporting documents have been received and assessed, the Dean's Office shall determine appropriate academic accommodation in consultation with the student's instructor(s). Academic accommodation may include extending deadlines, waiving attendance requirements for classes/labs/tutorials, arranging Special Exams or Incompletes, re-weighting course requirements, or granting late withdrawals without academic penalty. Academic accommodation shall be granted only where the documentation indicates that the onset, duration and severity of the illness are such that the student could not reasonably be expected to complete their academic responsibilities. (Note – It will not be sufficient to provide documentation indicating simply that the student “was seen for a medical reason” or “was ill.”)

Students who require academic accommodation should provide notification and documentation before due dates, examinations, etc. Students must follow up with their professors and their Academic Counseling office promptly.

Documentation from Family Physicians/Nurse Practitioners and Walk-In Clinics A Western Student Medical Certificate (SMC) is required when a student is seeking academic accommodation. This documentation should be obtained during the initial consultation with the physician/nurse practitioner or walk-in clinic. An SMC can be downloaded at:

http://www.uwo.ca/univsec/pdf/academic_policies/appeals/medicalform.pdf.

Students should make an appointment with a physician/nurse practitioner at Student Health Services during illness. Request a Student Medical Certificate from the Physician/Nurse Practitioner during this appointment.

Students should request that an SMC be filled out. Students may bring this form with them or request alternative Emergency Department documentation. Documentation should be secured at the time of the initial visit to the Emergency Department. Where it is impossible for a student to have an SMC completed by the attending physician, the student must request sufficient documentation to demonstrate that their ability to meet their academic responsibilities was seriously affected.

Instructors are encouraged, in the first instance, to arrange participation requirements and multiple small assignments in such a way as to allow students some flexibility.

Accommodation by Instructor for work worth less than 10% of the overall grade in a course. A student seeking academic accommodation for work worth less than 10% must contact the instructor or follow the appropriate Department or course-specific instructions on the course outline. Instructors will use good judgment in arranging accommodation and ensure fair treatment for all students. Instructors must indicate how they will deal with work worth less than 10% of the total course grade on the course outline.

In particular, instructors must indicate whether medical documentation will be required for absences, late assignments or essays, missed tests, laboratory experiments or tutorials, etc. Where medical documentation is required, such documentation must be submitted by the student directly to the appropriate Faculty Dean's office, and the Dean's office will determine whether accommodation is warranted. Given the University's Official Student Record Information Privacy Policy, instructors may not collect medical documentation.

In all cases where accommodation is sought for work totalling 10% or more of the final grade in a course, students will be directed to the appropriate Faculty Dean's office.

Students whose instructor has denied accommodation may appeal this decision to the appropriate Faculty Dean's office but will be required to present appropriate documentation.

Attendance:

Under university regulations, if someone misses more than 15% of their classes (15% is equivalent to missing 8 hours of Lecture and/or Studio Lab due to absence or lateness, or a combination of both, per semester) without written corroboration for health or bereavement, students can be debarred from participation in final evaluations and/or assignments. Note that if a student is consistently absent from a 3-hour class for 1 hour, they will exceed the 15% cutoff and be debarred; assignments may stop being accepted, and such assignments will receive a mark of 0 (zero)

Religious Accommodation:

Students should consult the University's list of recognized religious holidays and give reasonable notice, in writing before the holiday, to the Instructor and an Academic Counselor if their course requirements are affected by a religious observance. Additional information is given in the [Western Multicultural Calendar](#).

Electronic Devices:

During Exams: Unless you have medical accommodations that require you to do so or explicit permission from the course instructor, you may not use electronic devices during any tests, quizzes, midterms, examinations, or other in-class evaluations.

During Lectures and Tutorials: Although you are welcome to use a computer during lecture and tutorial periods, you are expected to use the computer for scholastic purposes only and refrain from engaging in any activities that may distract other students from learning. Occasionally, your professor may ask the class to turn off all computers to facilitate learning or discussion of the material presented in class. Unless explicitly noted otherwise, you may not make audio or video recordings of lectures – nor may you edit, re-use, distribute, or re-broadcast any of the material posted to the course website.

Western University accepts no responsibility for damage to or loss of artwork at any time while on display or transported to or from the John Labatt Visual Arts Centre.
