Course: SA 4605 Practicum
Term: Fall 2023- Winter 2024

Course Description

Practicum is a studio course designed to allow students to develop an individual studio practice in the context of contemporary art issues and a variety of media processes. It will, at all times, emphasize critical analysis and energetic discussion in combination with an intensive commitment to probing ideas through creative exploration.

Practicum provides time for studio development and production with a related research component. The course will encourage students to experiment with materials and methods as they develop a critical studio practice informed by theoretical investigations. Alongside the independent material and theoretical research, students will be introduced to the business of a successful art practice. This course will discuss the Canadian gallery system, the Canadian Arts Councils, the successful writing of artist statements, application processes for exhibitions, residencies, grants and graduate schools.

The university setting and the local communities offer access to information, ideas, and facilities that students are expected to use to enrich their creative practices. Attendance at speaker events and gallery openings is recommended and should be considered an important adjunct to the weekly studio classes. Students are immersed in the contemporary art scene through a series of class trips that focus on experiencing art in a wide variety of locations.

Course Objectives

Upon successful completion of the course, the student will be able to:

- Present a honed and cohesive independent body of work and research.
- Demonstrate perceptual, visual and conceptual skills through art making and as a critical viewer.
- Demonstrate an understanding of professional artist career trajectories and how these may relate to their own practice.
- Create a professional artist dossier and present their work in a professional manner.
- Prepare written and visual work for publication through the creation of a catalogue.
- Install and present their work in a professional gallery setting.
- Prepare an application for an exhibition, residency, school or grant.
- Build a professional online presence.
- Demonstrate a grasp of historical and contemporary issues relevant to the making and evaluation of contemporary practices in the visual arts.
Learning Outcomes

Autonomy and Professional Capacity

- Students will understand the range of opportunities for artists within and beyond the academic setting, and will have an awareness of the routes that must be taken to make advancements toward further study and/or professional practice.
- Students will understand the range of opportunities for art researchers within and beyond the academic setting, and will have an awareness of the routes that must be taken to make advancements toward further study and/or professional practice.

Application of Knowledge

- Students will use their capacities with the medium as a critical, discursive and expressive tool to develop creative works; understand the potential viability of their works, and will utilize their reflections on their works to explore and develop further projects in order to create a body of work.
- Students will utilize their knowledge of appropriate methods, the vocabularies pertinent to the field, and their ability to make appropriate judgements, in order to develop a sound argument regarding a particular historical development, and will be able to defend their argument according to a knowledge of scholarly works.

Communication Skills

- Students will be able to communicate in writing and orally regarding their projects and regarding relevant art and culture, and will recognize the range of language suited to differing communication opportunities (i.e. a grant application vs. a grad school application).
- Students will be able to communicate orally and in writing with regard to their research, and will be able to utilize different genres of writing for different purposes (i.e., to write an academic paper, or a magazine article).

Evaluation

Studio: Evaluation will be based upon the demonstrated ambition and resolution brought to meeting the creative, conceptual, technical and material demands of assignments and studio work, as well as in the level of participation demonstrated in all other aspects of the course. Students will be evaluated on their understanding of relevant theoretical issues introduced in class and their ability to integrate these ideas in their studio practice.

Writing: Written work will be graded on the student’s clarity of expression, editing, research, presentation, and correct formatting and citation of sources. Qualitative evaluation will take the form of a numerical breakdown of each assignment grade in reference to the above criteria as well as through oral feedback from the course instructors.

Student Responsibilities & Preparations

Students are expected to attend all classes punctually and participate in all class discussions and critiques. Students are also required to come to class with the necessary materials for each work session. Failure to meet these expectations will be reflected in their overall participation grade. Students are responsible for cleaning up after themselves after each work session. Failure to do so will be reflected in their overall participation grade. Students are responsible for following department policy in the installation and take-down of projects. Failure to do so will be factored into your assignment grade.

At the end of each semester, students will be required to take home all of their sculpture projects from the storage area. Failure to do so will result in your projects being disposed of by building staff.

Students are expected to work during class times, plus an additional 6 hrs/wk out of class and to make themselves aware of all assignments, procedures and due dates, and are required to complete all assignments by date of submission or critique. With fair notice to students, the course syllabus may change to adapt to class needs. It is the students’ responsibility to remain apprised of such changes.

All work presented for this course must be entirely the student’s own and all sources used in visual or written assignments must be properly cited. The instructor may not accept a completed project as student’s own work if there were no evidence of in-progress stages of the project throughout the semester. All assignments must be completed specifically for this class alone and punctually submitted and/or presented by posted deadline or critique. Students may not submit a project completed for another course, unless special permission is obtained from both of the instructors involved.

All assignments/projects are due at the beginning of class (8:30 am) on the due dates. Late penalty is 5% per day after the due date. Re-submitting of projects is permitted, provided the original project was handed in on time. All re-submitted works must be handed in by the last class of the term.

Attendance Policy

As this is a studio course, attendance and punctuality at all classes is absolutely mandatory. If you know that you are going to miss a class, please email me to keep me informed. You are responsible for making yourself aware of all assignments, procedures and due dates. It is the student’s complete responsibility to keep informed of any such changes.
Under university regulations, if someone misses more than 15% of their classes (15% is equivalent to missing 8 hours of Lecture and/or Studio Lab, due to absence or lateness, or a combination of both, per semester) without written corroboration for health or bereavement, students can be debarred from participation in final evaluations and/or assignments. Note that if a student is consistently absent from a 3-hour class for 1 hour, they will exceed the 15% cutoff and be debarred; assignments may stop being accepted and such assignments will receive a mark of 0 (zero).

In accordance with University policy, students are responsible for making themselves aware of all assignments, procedures, demonstrations and due dates. With fair notice, course assignments, schedule or due dates may change. Students are responsible for keeping abreast of course changes. Failure to attend an important demonstration or lecture without due cause will result in the student researching the information for themselves.

Participation

Attendance, punctuality and preparedness for class are critical, as the teaching methods used will include class critiques, lectures and studio work. Student preparation and active participation in these sessions is a requirement of the course. In addition to affecting participation grades, students late or otherwise not prepared for scheduled critiques or discussions will forfeit the opportunity for class feedback on their work. Evaluation of participation will depend on attendance and commitment to class discussions and activities, as well as professional conduct, committee work, participation in exhibition planning & development, participation in critiques, working in class on independent studio work. Students arriving unprepared, unreasonably late, or leaving early, will not be considered as having participated in a class.

Academic Consideration

The University recognizes that a student’s ability to meet their academic responsibilities may, on occasion, be impaired by medical illness. Illness may be acute (short term), or it may be chronic (long term), or chronic with acute episodes. Academic Consideration provides students with consistent, fair, and pedagogically appropriate consideration, without compromising the academic integrity of the course or program, when they have been unable to complete some component of a course due to short-term extenuating circumstances. Students who have long-term or chronic medical conditions (physical or mental) that may impede their ability to complete academic responsibilities are directed to seek Academic Accommodation through Accessible Education (Academic Accommodation for Students with Disabilities).

The University further recognizes that medical situations are deeply personal and respects the need for privacy and confidentiality in these matters. However, in order to ensure fairness and consistency for all students, academic consideration for work representing 10% or more of the student’s overall grade in the course shall be granted only in those cases where there is documentation indicating that the student was seriously affected by illness and could not reasonably be expected to meet their academic responsibilities.

Documentation shall be submitted, as soon as possible and no later than 48 hours after the end of the period of absence covered, to the Academic Counselling unit or Dean’s Office of the student’s Home Faculty together with a request for relief specifying the nature of the academic consideration being
requested. These documents will be retained in the student’s file, and will be held in confidence in accordance with the University’s Official Student Record Information Privacy Policy. Once the petition and supporting documents have been received and assessed, appropriate academic consideration shall be determined by the Dean’s Office in consultation with the student’s instructor(s).

Academic consideration may include extension of deadlines, waiver of attendance requirements for classes/labs/tutorials, arranging Special Exams or Incompletes, re-weighting course requirements, or granting late withdrawals without academic penalty. Academic consideration shall be granted only where the documentation indicates that the onset, duration and severity of the illness are such that the student could not reasonably be expected to complete their academic responsibilities. (Note – it will not be sufficient to provide documentation indicating simply that the student “was seen for a medical reason” or “was ill.”)

Whenever possible, students who require academic consideration should provide notification and documentation in advance of due dates, examinations, etc. Students must follow up with their professors and their Academic Counselling office in a timely manner.

**Documentation from Family Physicians/Nurse Practitioners and Walk-In Clinics**

A Western Student Medical Certificate (SMC) is required where a student is seeking academic consideration. This documentation should be obtained at the time of the initial consultation with the physician/nurse practitioner or walk-in clinic. An SMC can be downloaded at [http://www.uwo.ca/univsec/pdf/academic_policies/appeals/medicalform.pdf](http://www.uwo.ca/univsec/pdf/academic_policies/appeals/medicalform.pdf).

**Documentation from Student Health Services**

At the time of illness, students should make an appointment with a physician/nurse practitioner at Student Health Services. During this appointment, request a Student Medical Certificate from the Physician/Nurse Practitioner.

**Documentation from Hospital Urgent Care Centres or Emergency Departments**

Students should request that an SMC be filled out. Students may bring this form with them, or request alternative Emergency Department documentation. Documentation should be secured at the time of the initial visit to the Emergency Department. Where it is not possible for a student to have an SMC completed by the attending physician, the student must request documentation sufficient to demonstrate that their ability to meet their academic responsibilities was seriously affected.

**Religious Accommodation**

Students should consult the University’s list of recognized religious holidays, and should give reasonable notice in writing, prior to the holiday, to the Instructor and an Academic Counsellor if their course requirements will be affected by a religious observance. Additional information is given in the Western Multicultural Calendar.

**Student Conduct**

All students will conduct themselves in a manner that will be consistent with the maturity and academic integrity expected of university students. Student conduct shall be consistent with the general laws of
the community and with University regulations. Students shall show regard and respect for the rights, safety, and property of all members of the University community and are expected to act in a responsible manner within the University and the community at large.

**Academic Sanctions**

In instances of non-payment of prescribed tuition and other fees, the University shall seal the academic record. When an academic record is sealed, the student will not be able to: a) view grades; b) register in future courses; c) receive transcripts or a degree diploma; d) obtain admission or readmission. The above prohibitions shall be in force until such time as indebtedness to the University, including payment of fee for removal of the seal, has been cleared to the satisfaction of the University.

**Additional Course Material Request Policy**

For online courses the material may be presented in a variety of ways at the instructor’s discretion. Requests for additional material can only be made in cases necessitating academic accommodation. If a student requires Academic Accommodation for the course material, they can contact Western’s Academic Support & Engagement department. [http://academicsupport.uwo.ca/](http://academicsupport.uwo.ca/)

**Electronic Devices**

**During Exams:** Unless you have medical accommodations that require you to do so, or explicit permission from the instructor of the course, you may not use any electronic devices during any tests, quizzes, midterms, examinations, or other in-class evaluations.

**During Lectures and Tutorials:** Although you are welcome to use a computer during lecture and tutorial periods, you are expected to use the computer for scholastic purposes only, and refrain from engaging in any activities that may distract other students from learning. From time to time, your professor may ask the class to turn off all computers, to facilitate learning or discussion of the material presented in class. **Unless explicitly noted otherwise, you may not make audio or video recordings of lectures – nor may you edit, re-use, distribute, or re-broadcast any of the material posted to the course website.**

**Prerequisites**

You are responsible for ensuring that you have successfully completed all course prerequisites and that you have not taken an antirequisite course. Lack of prerequisites may not be used as basis of appeal. If you are not eligible for a course, you may be removed from it at any time, and you will receive no adjustment to your fees. These decisions cannot be appealed.

**Plagiarism**

Plagiarism, which may be defined as “The act or an instance of copying or stealing another’s words or ideas and attributing them as one’s own,” will not be tolerated. (Citation excerpted from Black’s Law Dictionary, 1999, 7th ed., p. 1170). This includes presenting the visual or aural work of another creator
as your own. Visual or Aural Plagiarism may involve both hand-based media such as drawing, painting, printmaking and sculpture, as well as digital media such as photography, video and sound. It includes work subsequently manipulated or transferred between different media, as well as self-plagiarism – work submitted for assignments previously produced and graded for another course. Similar to textual plagiarism, all student work involving the visual or aural work of others must be appropriately cited/identified whether in print or orally. Failure to do so will lead to similar academic penalties as those identified in Western’s Academic Calendar.

In this course, students are permitted to use AI tools exclusively for information gathering and preliminary research purposes. These tools are intended to enhance the learning experience by providing access to diverse information sources. However, it is essential that students critically evaluate the obtained information, exercise independent thinking, and engage in original research to synthesize and develop their own ideas, arguments, and perspectives. The use of AI tools can serve as a starting point for exploration, however students are expected to uphold academic integrity by appropriately attributing all sources and avoiding plagiarism. Assignments should reflect the student’s own thoughts and independent written work. By adhering to these guidelines, students contribute to a responsible and ethical learning environment that promotes critical thinking, independent inquiry and allows them to produce original written contributions.
